Alameda County

Grantee: San Leandro Unified School District

Amount Awarded: \$22,568.00

Grantee Contact: Ms. Song Chin-Bendib

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Bancroft Recreation Field Track Surfacing Project Project Information: Recreation: Tracks The San Leandro Unified School District is in the process of improving the sports facilities at the Bancroft Middle School. These facilities will be used by the school during regular school hours and for afterschool programs. The community will be able to use them when school is not in session evenings, weekends and during summer months. The specifications of the plan allow for a 10.5 x 1,448`=15,200 sq. ft. (3 lanes @ 42` each) track with a concrete curb on both sides. This track will be around the perimeter of the new sports field.

Total Awarded for County:\$22,568.00

Alpine County

Grantee: Alpine County Unified School District

Amount Awarded: \$33,478.00

Grantee Contact: Janis Doyal

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Information: Recreation: Playgrounds Project Name: Diamond Valley School Playground The purpose of the project is to provide a safe cushioned area around and beneath the playground equipment at the Diamond Valley School. Because to the extreme winter weather, product choices are limited and expensive. For this reason, the district is seeking financial help with the project. The total area in need of product is 8,600 sq. ft.

Total Awarded for County:\$33,478.00

Amador County

Grantee: Amador County Office of Education

Amount Awarded: \$43,260.00

Grantee Contact: Ms. Dorothy Putnam-Smith

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Information: Recreation: Playgrounds Project Name: Amador County Office of Education State Preschool Playgrounds The Amador County Office of Education (ACOE) State Preschool intends to divert 10,300 (103 tons, or 206,000 lbs.) of 100% California waste tires from the California waste tire stream through the use of Tire-Derived Product rubber chips. These TDP rubber chips will replace the wood chips currently in use at all four State Preschool sites throughout the ACOE area located in the towns of Pioneer, Jackson, Plymouth, and Lone, California. These four playgrounds will periodically require additional California waste tire rubber chips, thereby providing an ongoing market for 100% recycled California waste tires.

Total Awarded for County:\$43,260.00

Butte County

Grantee: Butte-Glenn Community College District

Amount Awarded: \$40,465.00

Grantee Contact: Mr. Michael Dunbaugh

CalRecycle Grant manager: Debbie Escobar

Project Summary: Agriculture/Landscape: Mulch or Bark; Project Name: Firearms Range Backstop Bark; Associated with our Law Enforcement academy, Butte College operates an outdoor instructional firearms range with a backstop that is currently soil that must routinely be amended to ensure that both its depth and composition provides a safe backstop for bullets to enter. At a cost of \$40,466 we propose placing 117 yards of recycled tire bark as the backstop, thereby reducing the possibility for ricochet, injury and ongoing maintenance at current levels. This will result in 7,486 PTE used. Butte-Glenn Community College District has identified the equipment and labor for this project pending grant approval.

Total Awarded for County:\$40,465.00

El Dorado County

Grantee: Lake Tahoe Unified School District

Amount Awarded: \$100,000.00

Grantee Contact: Mr. Stephen Morales

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: South Tahoe Middle School & High School Track Project Information: Recreation: Tracks/Sports Surfacing This project will replace the 1968 Olympic Trials track with an asphalt surfacing overlaid with an all-weather, rubberized material composted of 100 percent recycled California tires resulting in a track, pole vault and long jump areas that are not only safer but usable year-round by students and community participants. The LTUSD staff members are rallying support for this project by combining the efforts of parents, students, community members and local businesses that understand the benefits to students and the Lake Tahoe community of an all-weather track. When completed, the track will meet crucial student and community needs by providing an even, mud and dust free surface for physical education. training, specialized sports events, walking, jogging, and family recreation, thereby promoting the health and well being of community residents.

Total Awarded for County:\$100,000.00

Fresno County

Grantee: City of Coalinga

Amount Awarded: \$29,752.00

Grantee Contact: Ms Mercedes Garcia

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Playground Cover Project Information: Playgrounds The City of Coalinga will remove the current playground cover at Sandalwood and replace it with the rubber mulch. The City will use rubber mulch for their new park playground , Centennial Park. The rubber mulch is made from 100% California recycled tires. 6,151.25 PTE`s will be utilized form this project and will be removed from the California Waste Stream.

Grantee: City of Parlier

Amount Awarded: \$75,054.00

Grantee Contact: Patricia Barboza

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Playground Cover for Parks in Parlier Project Information: Playgrounds; Sidewalks/pathway The city of Parlier will remove the current playground cover at Veteran`s Park, Tot Lot and Earl Ruth Park and replace it with rubber mulch. The City will also put turf on the median of Manning Ave. With both projects , a total 18,545 PTE`s will be diverted from the California waste stream. The City will issue a press release and put up a sign notifying the public that the projects were paid for by the CI`WMB.

Grantee: City of Sanger

Amount Awarded: \$87,805.00

Grantee Contact: Mr. John Mulligan

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Jogging Trail/Playground Cover for Parks Project Information: Recreation: Playgrounds/Sidewalks/Pathway The City of Sanger will put a jogging path in JFK and Jenny Park. The jogging path will be made from 100% California recyclable tires. The city will also use the recycled rubber product for a playground cover in Lincoln Park. All projects combine remove 21,670 PTE's from the California Waste Stream.

Grantee: Clovis Unified School District

Amount Awarded: \$99,468.00

Grantee Contact: Ms Jackie Burgan

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Information: Playgrounds Project Name: Safe-4R Kids/Sage-4R Environment - Play Yards The Child Development Department, Clovis Unified School District proposes to replace existing wood mulch playground surfacing at five state-funded preschools with recycled shredded tire-derived playground resilient surfacing. The playgrounds are located at Century Special Education/Full-Inclusion Preschool, Dry Creek Preschool, a heavily impacted school located in North East Clovis, Cole and Sierra Vista Preschools located in Central Clovis, Lincoln Preschool located in North Fresno, and Fancher Creek Preschool located in South East Fresno. These preschools are provided to families who qualify for the no cost state-funded preschool program based on their income. The use of the shredded TDP product complies with our District's commitment to promote an Environmentally Safe Community.

Grantee: Malaga County Water District

Amount Awarded: \$66,665.00

Grantee Contact: Mr. Russ Holcomb

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Jogging Trail through Park Project Information: Recreation: Sidewalks/Pathway Malaga County Water District is revitalizing their community park. Putting in the path around the circumference is part of that effort. The path will be 16,000 square feet comprised of bound rubber mulch made from 100% California recycled tires. 13,000 PTE's will be derived from the California waste Stream through this project.

Total Awarded for County:\$358,744.00

Humboldt County

Grantee: Humboldt County Fair

Amount Awarded: \$22,972.00

Grantee Contact: Ms. Susan Combes

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: Arena Improvement Project Project Information: Recreation: Other: Arena Rubber & Stall Mats For the more than 600 equine athletes and their 500 riders who use our Covered Arena each year, the facility provides few opportunities to train on a safe, healthy footing that is yielding yet dust free. Our 1.5-man maintenance team has little time to maintain the arena and we find that if the footing is wet enough to lay down the dust it packs hard and slick, posing a risk of leg injury or falls to horse and rider alike. When the footing is resilient and yielding, hazardous dust billows into the lungs and eyes of horse and human, especially troublesome for the 50 horses that make their permanent homes on the arena perimeter. Lumpy, rocky dirt floors in stalls require excessive bedding, and still horses are sore from standing on uneven footing and sick from ingesting dirt. Recycled tire produces in the form of arena rubber and stall mats will make our popular facility safer and healthier for horses and riders and more environmentally friendly with less waste generated.

Grantee: Ninth District Agricultural Association

Amount Awarded: \$94,170.00

Grantee Contact: Judi Ferreira

CalRecycle Grant manager: Victoria Rocha

Project Summary: Other: Horse Arenas; Project Name: Redwood Acres: Arena Footing; The five riding arenas will be graded and sloped for drainage, adding drain pipe as necessary. Crushed rock will be packed for a solid base; a layer of sand will be added to assure proper depth, followed by ground rubber. The final step is to drag the arenas to insure complete mixture of the ground rubber and sand.

Grantee: Trinidad Rancheria

Amount Awarded: \$55,459.00

Grantee Contact: Susie Long

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Information: Agriculture/Landscape: Mulch or Bark Project Name: Cher-Ae Heights Environmental Surfacing To mulch 20,000 sq. feet to reduce water usage and eliminate chemical spraying of vegetation.

Grantee: Wiyot Tribe

Amount Awarded: \$57,924.00

Grantee Contact: Maura Eastman

CalRecycle Grant manager: Victoria Rocha

Project Summary: Recreation: Playgrounds; Project Name: Playground Safety Surfacing and Upgrade; The Wiyot Tribe, a federally recognized Indian tribe, proposes to install rubber mulch on the playground located on Table Bluff Reservation in Loleta, California. The playground is the central point in a green space utilized by all community members. The Tribe is seeking to provide for the safety of our community by improving recreational facilities for the children and families of the Tribe. The installation of tire-derived rubber mulch will be overseen by Tribal staff and accomplished by volunteers, as part of a program to train community members in the maintenance and management of the playground and open space.

Total Awarded for County:\$230,525.00

Inyo County

Grantee: 18th District Agricultural Association

Amount Awarded: \$99,918.00

Grantee Contact: Mr. Jim Tatum

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: Eastern Sierra Tri-County Fairgrounds Livestock Waste Diversion Program Project Information: Agriculture/Landscape: Other: Stall Mats Installation of four (4) 4' x 6' TDP stall mats in approximately 550 livestock pens at Eastern Sierra Tri-County Fairgrounds. Utilization of these mats will drastically reduce the amount of bedding required and will also eliminate the contamination of bedding by creating a barrier between the existing base and the shavings. This process will facilitate the use of animal waste and shavings being used as fertilizer and soil amendment at the fairgrounds, thus significantly enhancing our recycling efforts.

Total Awarded for County:\$99,918.00

Kings County

Grantee: Corcoran Joint Unified School District

Amount Awarded: \$93,100.00

Grantee Contact: Donnetta Murray

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: Playground Cover Project Information: Playgrounds The project will consist of removing the existing playground cover at Bret Harte Elementary (2 playgrounds). The staff of Corcoran Unified will replace it with rubber mulch. The rubber mulch is made from 100% California recyclable tires. 18,620 PTE's will be diverted from the California Waste stream from this project.

Total Awarded for County:\$93,100.00

Lassen County

Grantee: Lassen Union High School District

Amount Awarded: \$21,462.00

Grantee Contact: Ms Lisa Cavin

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: All Weather Track Project Information: Recreation: Tracks This project upgrades the existing Lassen High School dirt track with an asphalt surfacing overlaid with an all-weather, rubberized material composed of 100% recycled CA tires resulting in a track that is not only safer but useable year-round by the students and community participants it is intended to serve. Lassen High School is rallying support for this project through the efforts of the District and Lassen High School staff members, parents, and students who are teaming with community members, local businesses, the City of Susanville, Lassen Co., the State of CA, and community volunteers who realize that the physical fitness needs of Lassen High School students and the surrounding community warrant an all-weather track. When completed, this track will meet crucial student and community needs by providing an even-surfaced, mud and dust free track for physical education, training, track practice and meets, specialized sports events, track and field practice and events, walking, jogging, family recreation, and youth sports programs, in addition to promoting the overall health and well being of all Lassen Co. residents. Additionally, this project saves 21,462 tires from the State of CA landfills, which helps to alleviate the State's waste tire disposal problems.

Total Awarded for County:\$21,462.00

Madera County

Grantee: City of Chowchilla

Amount Awarded: \$56,677.00

Grantee Contact: Ms. Joanne Upton

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Playgrounds; Project Name: Playground Surfacing Project; If awarded the TDP grant, the project would provide for approximately 12,000 square feet of playground surfacing derived from waste tires for two playgrounds located within two community parks. This playground surfacing would be ADA accessible. It would also provide for a safer, resilient surface that would prevent serious injuries to children if they were to fall. This project would foster a meaningful recycling effort as it relates to the re-use of waste tires. Since 2003, successful tire recycling efforts over the last several years have resulted in diverting 158,000+ tires in this county alone and the City of Chowchilla is now able to participate consistent with this effort as it relates to its adopted Directive for Waste Reduction and Recycling Practices for the proposed project.

Total Awarded for County:\$56,677.00

Placer County

Grantee: Placer Union High School District

Amount Awarded: \$22,398.00

Grantee Contact: Doug Marquand

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: All-Weather Track Project Information: Tracks Colfax High School project is to change our current DG track into an all-weather track surface , as well as additional field events areas. Weather conditions make our track difficult to maintain. An all-weather surface would make our track available for use for both the high school and community year-round.

Grantee: Rocklin Unified School District

Amount Awarded: \$70,468.00

Grantee Contact: Larry Stark

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Sports Surfacing; Project Name: Rocklin High School Stadium Turf; Rocklin High School currently has a grass stadium field which is difficult to maintain due to continued use. The school and district are raising funds to replace the current grass field with an artificial turf surface. The new surface will better serve the needs of the Rocklin Unified School District, Rocklin High School and the City of Rocklin.

Total Awarded for County:\$92,866.00

Sacramento County

Grantee: San Juan Unified School District

Amount Awarded: \$74,750.00

Grantee Contact: Ms Nina Mancina

CalRecycle Grant manager: Debbie Escobar

Project Summary: Project Name: Del Campo High School and Rio Americano High School Track Projects Project Information: Tracks The Del Campo and Rio Americano high school track projects will replace the current cinder/dirt tracks with USATF/CIF certified all weather synthetic tracks that can be used by the schools, organized community athletic programs and the neighborhood. While the neighborhood continues to use both dirt tracks, the school and the organized community athletic programs have limited use due to the deteriorating condition of the tracks that has caused safety concerns. In addition, rain results in a track that cannot be used because the surface becomes mud. The schools have had to move their programs to other locations and incur costs that ordinarily wouldn't be necessary with a resurfaced year round track located at the school. The project will replace the dirt tracks with a resurfaced track from recycled California tires that will provide a year round facility of the school , community and neighborhood.

Total Awarded for County:\$74,750.00

San Joaquin County

Grantee: City of Stockton

Amount Awarded: \$99,995.00

Grantee Contact: Vijay Sinha

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Sidewalks / Pathway; Project Name: Citywide Sidewalk Repairs: The City of Stockton will replace tree-damaged sidewalks which are located throughout the City.

Grantee: Lodi Unified School District

Amount Awarded: \$22,500.00

Grantee Contact: Mr. Mitch Slater

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Tracks; Project Name: Morada Middle School Running Track; Create an all-weather running surface to support the enhanced athletic curriculum established for the District's middle school students.

Total Awarded for County:\$122,495.00

Shasta County

Grantee: Enterprise Elementary School District

Amount Awarded: \$98,528.00

Grantee Contact: D Smith

CalRecycle Grant manager: Victoria Rocha

Project Summary: Agriculture/Landscape: Mulch or Bark; Project Name: Playground Safety; Enterprise School District proposes to replace existing wood mulch playground cover surfacing at 2 of the District's existing playgrounds with recycled shredded tire derived playground resilient surfacing. The playgrounds are located at Rother Elementary and the adjacent Monte Vista schools. Rother serves K-5 grades and Monte Vista serves low income families with children ages 18 months - 5 years. The playgrounds are currently open to the public. The existing wood mulch under and around the playground equipment will be recycled as soil amendment and surface mulch on site. The use of the TDP shredded product will promote the District's commitment to the use of recycled materials, and provide safe accessible playgrounds that satisfy State and Federal playground standards. The work of removing the existing bark mulch and replacing with the TDP mulch will be performed by District employees.

Grantee: North Cow Creek Elementary School District

Amount Awarded: \$43,460.00

Grantee Contact: Mr. Merritt Barnes

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: North Cow Creek School Playground Pea Gravel Replacement Project Information: Recreation: Playgrounds Our school playground has two play areas, one 110' x 50' and second 140' x 60' which are currently covered with pea gravel. This year alone two students of a school population of 320 have suffered broken bones when they fell in the graveled areas. This grant would allow us to replace the gravel with rubber bark produced by A.G. Link as a way of reducing injuries and increasing playground safety.

Total Awarded for County:\$141,988.00

Siskiyou County

Grantee: 10th District Agricultural Association

Amount Awarded: \$26,277.00

Grantee Contact: Ms. Rebecca Desmond

CalRecycle Grant manager: Victoria Rocha

Project Summary: Recreation: Other - Horse Stalls; Project Name: Horse Stall Mats; Replace dirt surface with equestrian mats in 72 horse stalls in three barns at the Siskiyou Golden Fairgrounds. The horse stalls are used by numerous youth and adult equestrian and high school rodeo organizations for events throughout the year. Grant request includes supply of extra mats for replacement in routine maintenance of stalls.

Total Awarded for County:\$26,277.00

Solano County

Grantee: City of Vacaville

Amount Awarded: \$83,330.00

Grantee Contact: Mr. Rollie Simons

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: Alamo Creek, Browns Valley & Meadowlands Park Playground surfacing Replacements Project Information: Playgrounds The City of Vacaville will be replacing playground equipment at three parks to include Alamo Park, Browns Valley Park, and Meadowlands Park. Since all three of these playgrounds need to be updated to meet new State safety standards, a combined total area of 14,900 sq. ft. of loose rubber mulch will be utilized under the play equipment diverting 16,666 California tires. All three of these parks are heavily used by our residents with two or three parks being located adjacent to Elementary Schools.

Total Awarded for County:\$83,330.00

Sonoma County

Grantee: City of Sebastopol

Amount Awarded: \$95,750.00

Grantee Contact: Ms Mary Gourley

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Sports Surfacing; Project Name: Karlson Field Renovation Project: Project will result in the installation of a safe, low-maintenance, all weather playing surface to serve the 8,500 residents of the greater Sebastopol community. Youth and high school athletic teams and physical education classes will use the playing surface approximately 72,500 person-days per year. The sport surface will also be available for recreational use by community members, with an additional use of approximately 13,800 person-days per year. The use of tire derived product in this project is consistent with the Sebastopol community value of responsible environmental stewardship.

Grantee: West Sonoma County Union High School District

Amount Awarded: \$21,999.00

Grantee Contact: Frank Anderson

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Tracks; Project Name: El Molino All-Weather Track Project: The existing running track at El Molino High School is not available for school or community use from November through March because it is a dirt surface with inadequate drainage. The surface is so inferior that the high school cannot host interscholastic track meets. The El Molino All-Weather Track Project will result in the installation of a safe, low-maintenance, all weather track surface with excellent drainage. The project will allow the high school to host track meets, and increase school and community use from approximately 33,000 person-days to approximately 66,800 person-days, an increase of over 50%.

Total Awarded for County:\$117,749.00

Tulare County

Grantee: City of Lindsay

Amount Awarded: \$97,225.00

Grantee Contact: Ms. Diane Bucaroff

CalRecycle Grant manager: Debbie Escobar

Project Summary: Recreation: Playgrounds, Sidewalks/Pathway, Sports Surfacing; Project Name: McDermont Indoor Soccer Field - City Park - City owned Moore Plaza Center; The City of Lindsay is proposing to utilize recycled California tires in a variety of landscape and recreation applications throughout the City. Projects include granulated crumb rubber to be used at an indoor soccer complex to insure safety by cushioning the surface. Rubber mulch to provide a safe and accessible playground surface within the City park, and to mulch public medians and planter areas. Rubber mulch to be used for a plaza expressway at the Moore Plaza Center. The City has utilized recycled rubber products in a number of past applications and has become a showcase of the positive rewards of CIWMB grant funding.

Grantee: Saucelito Elementary School District

Amount Awarded: \$38,183.00

Grantee Contact: Cynthia Lamb

CalRecycle Grant manager: Victoria Rocha

Project Summary: Project Name: Playground Resurface; Project Information: Playgrounds The project will entail the removal of existing bark. A new surface consisting of tire-derived playground mulch will be put in place for added playground safety.

Total Awarded for County:\$135,408.00

Grant Count: 31

Grand Total for Selected Counties: \$1,895,060.00
